

AquaVac® 6 Series

EXPERT LINE

A CONSTANT SUCTION POWER

- **«SpinTech™» Technology:** debris separation thanks to the filterless cyclone vacuum technology (18 hydrocyclones) which ensures maximum suction power throughout the cleaning process
- **«HexaDrive™» Technology:** the adaptive traction system with its 6 rugged variable-speed rollers allows the cleaner to climb the walls and clean them easily and efficiently.
- **«TouchFree™» Collector:** no more dirty hands thanks to the transparent «TouchFree™» debris collector! Simply empty it and rinse it out in a single movement
- **«Spot Clean» Function:** WiFi app for programming and managing your cleaner from your smartphone (AquaVac® 650 model only)
- **«Tug & Catch» Function:** easily retrieve your cleaner from your pool (AquaVac® 650 model only)
- **Available in foam and brushes versions,** suitable for all types of pool
