\* The advised pool volume indicated applies under following conditions: Swimming pool is well covered; system runs at least 15 hours per day;  
The final specs will be in accordance with the specs on the product.

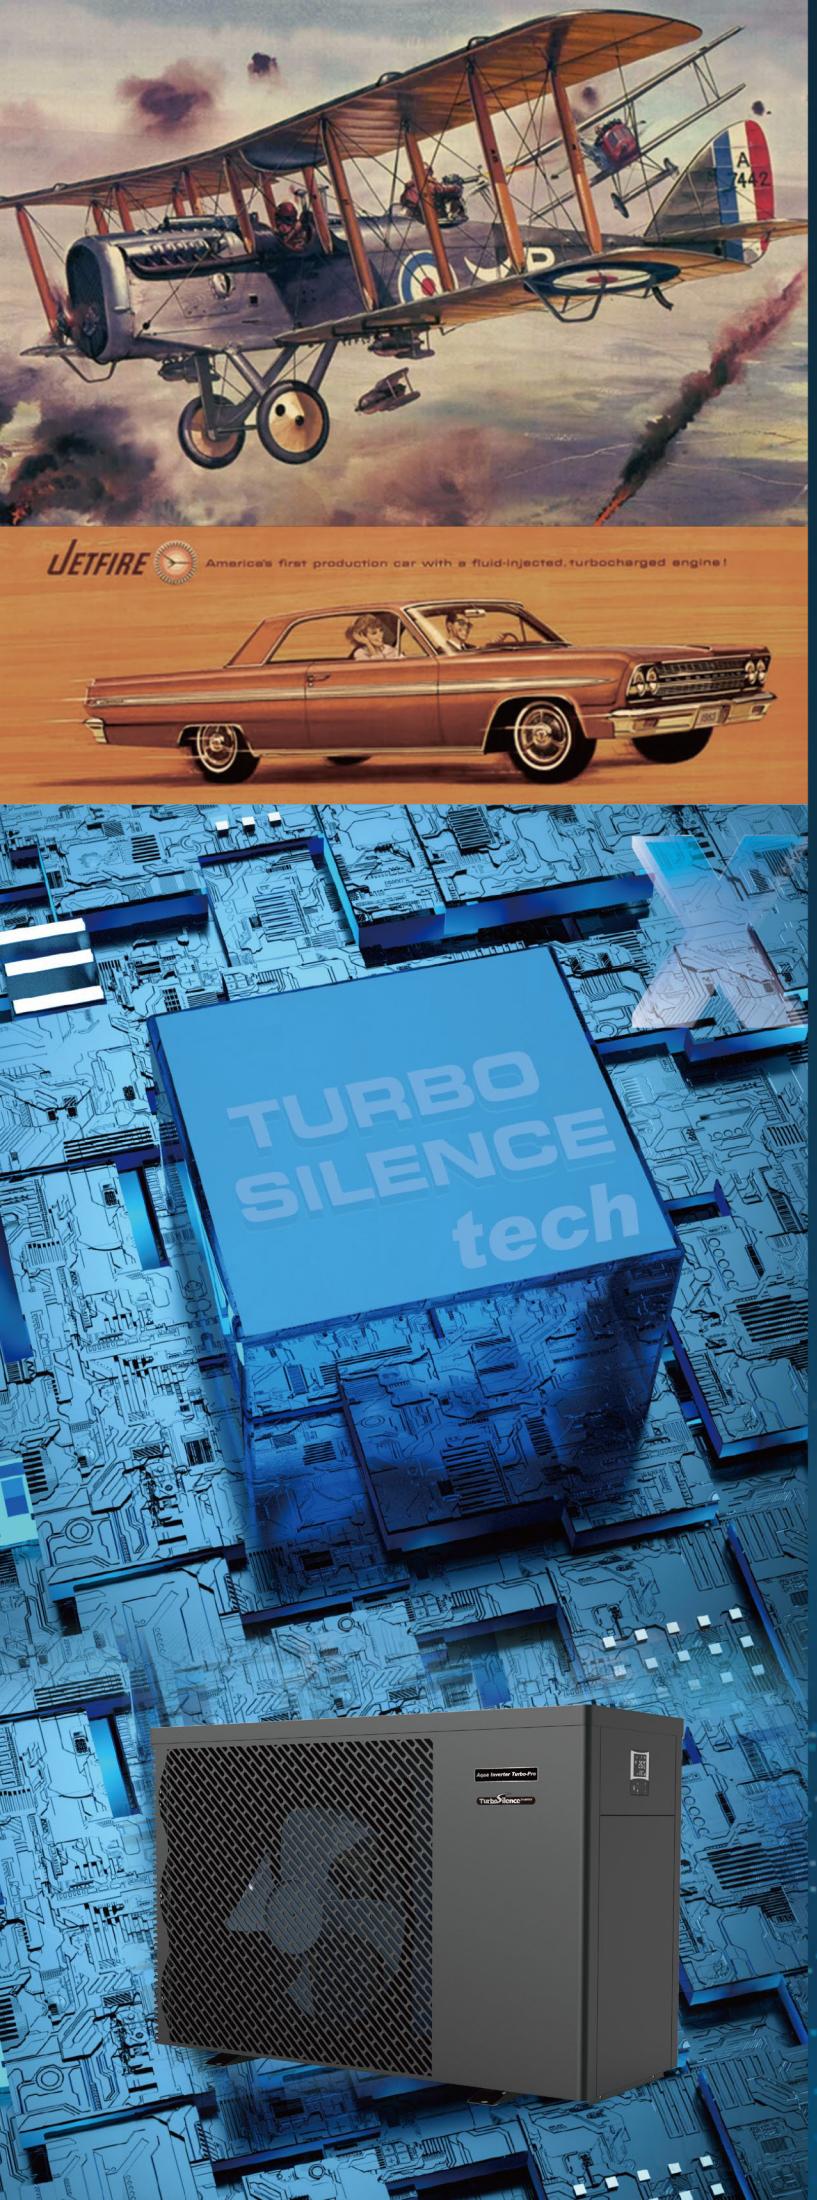

**TurboSilence** Inverter

BEST  
FROM  
FUTURE

# Aqua Inverter Turbo-Pro

► 1905 - Turbobooster was invented by Swiss engineer Alfred Buchi and was applied for the first time on an airplane

► 1962 - Turbo tech was applied on the car for the first time

► After 5 Years R&D, Revolutionary Turbo Silence Inverter successfully launched in 2019, bringing Passion and Peace to the Pool heating industry

## TurboSilence<sup>Inverter</sup>

### Revolutionary Inverter Technology

It took 5 years to develop AquaX with the unique TurboSilence Inverter. The entire TurboSilence control system is optimized based on Full-Inverter tech. It perfectly balances the Inverter-compressor-control & heat exchanging technology, this creates the Turbo performance and Silent operation of AquaX. Hopefully AquaX will bring you Passion and Peace.

### Listen to the Nature

- 10 times quieter than Standard Inverter HPs
- Unique HP without compressor noise, clear up all high frequency sound
- Friendly neighborhood & swimming environment

### Turbo and Saving

- COP 50~70% higher than Standard Inverter HPs by 100% speed
- Extra 20% capacity for quicker heating up, still higher COP than others
- Average 50% capacity to maintain pool temperature

### Other Advantages

- Integrated Control System - Lower failure and easier after service
- Unique Porous design with optimal ventilation system, which brings the best heat exchanging, resistant and everlasting
- Intelligent touch controller with free WI-FI built in
- 4 season function
