HydroStar Next App – my training programme

With HydroStar and EasyStar you can finally push yourself to the limit in your pool: no more tiresome turns and no annoying splash water. Instead, pure endurance swimming! This is made possible by the inimitable turbine technology, which creates a broad and powerful current. Experience the unique sensation of swimming.

1 Download & install app

The HydroStar Next app is available in the Google Play Store and in the App Store. It can be used on all mobile devices.

2 Connect with the turbine swimming system

The system's control unit and the mobile device must be registered on the same network.

3 Activate

Start the app and create your individual training units.

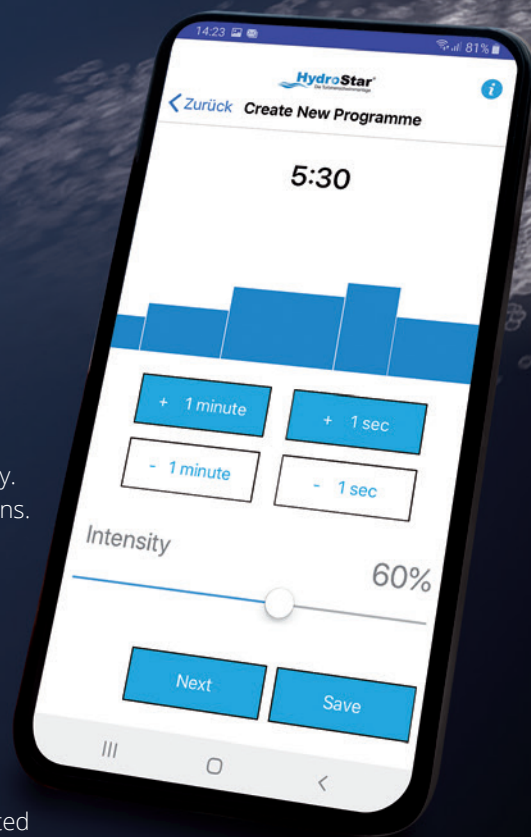

Lighting control

Using the HydroStar Next app you can also very easily control our atmospheric LED lighting.

Training programme

- Create your individual training programme – quickly and easily.
1. Set the desired time using the “minute” and “second” buttons.
 2. Set the intensity using the slider.
 3. Confirm via “Next”.
 4. Finish via “Save”.

Intensity

HydroStar Next is perfectly suited to adapting the strength of the current to your individual needs
